

Payloads to be used for the project are as below

People End Points

Get Method Payload (Get People)

Get All People Payload

```
{ "pageNumber": 1,
  "pageSize": 10,
  "sortParams": [
    {
      "sortColumn": "PeopleId",
      "sortOrder": 1
    }
  ],
  "filterParams": null}
```

Get A Particular People

```
{ "pageNumber": 1,
  "pageSize": 10,
  "sortParams": [
    {
      "sortColumn": "PeopleId",
      "sortOrder": 1
    }
  ],
  "filterParams": {
    "filterColumn": "PeopleId",
    "filterValue": "2",
    "operator": "eq",
    "logicOperator": "and",
    "filterList": null
  }
}
```

Post Method Payload (Create New People)

```
{
  "peopleId": 0,
  "peopleFirstName": "Mr",
  "peopleLastName": "John",
  "gender": "Male",
  "hourlyRate": 5500,
  "bankAccount": "99999999"
}
```

Put Method Payload (Update People) (For All the update method use already existing Id's)

```
{
  "peopleId": 3,
  "peopleFirstName": "Mr",
  "peopleLastName": "John",
  "gender": "Male",
  "hourlyRate": 5555,
  "bankAccount": "99999999"
}
```

```
}
```

Delete Method Payload (Delete People)

```
{
  "peopleId": 3
}
```

Timesheet Status Type End Points

Get Method Payload (Get Timesheet Status Type)

Get All People Payload

```
{ "pageNumber": 1,
  "pageSize": 10,
  "sortParams": [
    {
      "sortColumn": "TssTypeId",
      "sortOrder": 1
    }
  ],
  "filterParams": null}
```

Get A Particular Timesheet Status Type

```
{ "pageNumber": 1,
  "pageSize": 10,
  "sortParams": [
    { "sortColumn": "TssTypeId",
      "sortOrder": 1
    }
  ],
  "filterParams": {
    "filterColumn": "tssTypeName",
    "filterValue": "Draft",
    "operator": "eq",
    "logicOperator": "and",
    "filterList": null
  }
}}
```

Post Method Payload (Create New Timesheet Status)

```
{
  "tssTypeId": 0,
  "tssTypeName": "Deleted"
}
```

Put Method Payload (Update Timesheet Status) (For All the update method use already existing Id's)

```
{
  "tssTypeId": 5,
  "tssTypeName": "DeletedForTesting"
}
```

Delete Method Payload (Delete Timesheet Status)

```
{
  "tssTypeId": 5
}
```

Step 9 : Timesheet End Points

Get Method Payload (Get Timesheet)

Get All People Payload

```
{ "pageNumber": 1,  
  "pageSize": 10,  
  "sortParams": [  
    {  
      "sortColumn": "TimesheetId",  
      "sortOrder": 1  
    }  
  ],  
  "filterParams": null}
```

Get A Particular Timesheet (In this case getting the timesheets based on the status = 3)

```
{  
  "pageNumber": 1,  
  "pageSize": 10,  
  "sortParams": [  
    {  
      "sortColumn": "TimesheetId",  
      "sortOrder": 1  
    }  
  ],  
  "filterParams": {  
    "filterColumn": "tssTypeId",  
    "filterValue": "3",  
    "operator": "eq",  
    "logicOperator": "and",  
    "filterList": null  
  }  
}
```

Get Timesheet in between dates

```
{ "pageNumber": 0,  
  "pageSize": 0,  
  "sortParams": [  
    { "sortColumn": "TimesheetId",  
      "sortOrder": 1 }  
  ],  
  "filterParams": {  
    "filterColumn": "",  
    "operator": "",  
    "filterValue": "",  
    "logicOperator": "and",  
    "filterList": [ { "filterColumn": "WorkFromTime",  
                      "operator": "gt",  
                      "filterValue": "2021-06-01",  
                      "logicOperator": "and",  
                      "filterList": null }, {  
                      "filterColumn": "WorkToTime",  
                      "operator": "lte",  
                      "filterValue": "2021-06-03",  
                      "logicOperator": "and",
```

```
"filterList": null  }  ] }}
```

Post Method Payload (Create New Timesheet)

```
{
  "timesheetId": 0,
  "peopleId": 1,
  "tssTypeId": 3,
  "timesheetDate": "2021-06-04T13:00:40.0862051",
  "workFromTime": "2021-06-04T13:00:40.0862051",
  "workToTime": "2021-06-04T16:00:40.0862051",
  "workTotalTime": 3,
}
```

Put Method Payload (Update Timesheet) (For All the update method use already existing Id's)
(Updating the timesheet by changing the status from Paid to Removed (ie., 3 to 4))

```
{
  "timesheetId": 11
  "peopleId": 1,
  "tssTypeId": 4,
  "timesheetDate": "2021-06-04T13:00:40.0862051",
  "workFromTime": "2021-06-04T13:00:40.0862051",
  "workToTime": "2021-06-04T16:00:40.0862051",
  "workTotalTime": 3,
}
```

Delete Method Payload (Delete Timesheet)

```
{
  "timesheetId": 11
}
```
